

## **The NABERS training series is now open for registrations.**

The 2012 NABERS training series for people to become accredited assessors or simply better understand how the NABERS rating tools work are now open for registration.

Courses are being held in Sydney, Melbourne, Brisbane, Perth and Canberra.

NABERS is the industry standard for measuring the real environmental impact of Australian buildings. For owners and tenants of buildings, NABERS provides a simple way to measure, report, improve and promote environmental performance.

The **NABERS Introduction Seminar** is essential for anyone who wants to better understand NABERS ratings and their obligations under **the Commercial Building Disclosure scheme (CBD)**. CBD requires anyone selling or leasing office space greater than 2000m<sup>2</sup> to disclose a NABERS Energy rating.

For those who wish to conduct NABERS ratings, the **Accredited Assessor Training Courses** (Offices/Hotels and Shopping Centres) provide a pathway to accreditation. Whether you wish to rate your own building, take advantage of the increased demand for Assessors under the CBD scheme, or simply gain an in-depth understanding of the NABERS rating tools, the Accredited Assessor training is for you.

**See below the upcoming dates for NABERS Introduction and Training Seminars.**

**Introductory Seminary (2pm – 5 pm): \$275 including GST**

Sydney: 28 February; 27 March & 5<sup>th</sup> June
